14 November 1990

MEMORANDUM FOR: Assistant Director, OSI

FROM: Assistant Director, OCD

SUBJECT: Project: "Soviet Men of Science"

1. I agree entirely with your memo of November 9th on the above subject, and believe the project should be shaped up as soon as possible.

2. In accordance with your suggestion, I have asked [redacted], Chief of the Biographic Register, to call together and chair a meeting with [redacted] of your Office, Mr. [redacted] of FBI, and [redacted] of Biographic Register for the purpose of preparing a statement of preliminary findings and recommendations for consideration by CIA. I have asked that this meeting be called at once, in order that we may have the advantage of [redacted] comments in the light of his knowledge of scientific data in Europe.

3. This project, of course, will be of interest to the other IAC agencies; and it is possible we will wish to tie it in to Mr. [redacted] projected survey trip. However, in view of past experience, I believe we will do well to firm up our own position as to content and scope of the project before inviting discussion with the Army.
